Saas Performance Report

Revenue Insights and Key Focus for the Next 6 Months

Data Analysis and Visualisation By Ibeachu Judith

Scale Flow

Objectives

This report Analyzes the company's overall performance to:

- Identify Key Revenue Sources
- Detect Areas where there may be losses
- Highlight Key Focus Areas For The Next 6 Months

By Ibeachu Judith

SCALE FLOW.

Perfomance Overview

This Project covers a period of 2023 - 2024

Total Customers	Total Revenue	Churn Rate	Churned Revenue
420	**23.31 M**	**24%**	**6.29 M**
YOY: 225.58%	YOY: 254.3%	YOY: 13.76%	YOY: 339.62%

There’s a very high increase in revenue and October is a peak sales month as it has either the revenue or one of the highest revenue across all months in a year and customer churn is very high.

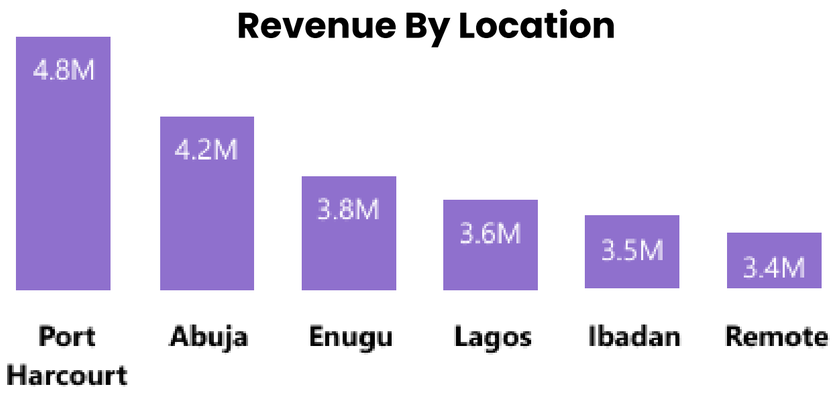
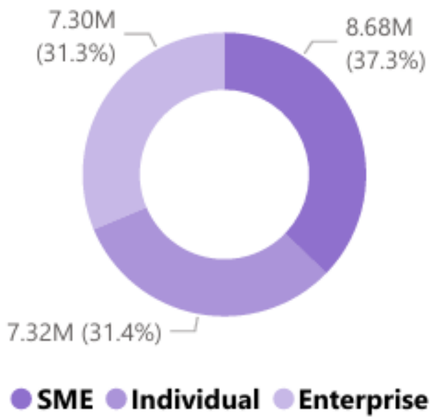
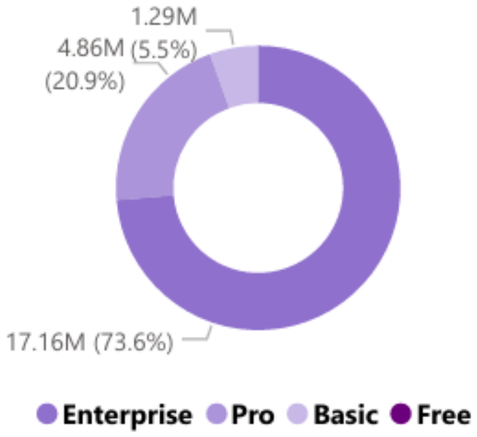
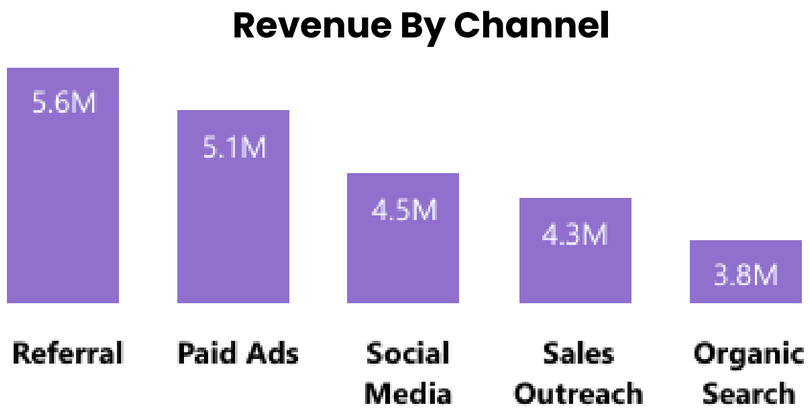
SCALE FLOW

Where We Are Earning









Revenue By Customers Segment
Revenue here is distributed almost equally among each customer segment with SME contributing the highest revenue.

Revenue By Payment Plan
Enterprise generates the largest share of revenue, contributing 73.6% of total sales

SCALE FLOW

Where We Are Losing

Payment Plan	Revenue	Total Customers	Churned Customers	Churn Rate
Enterprise	17,159,260	98	28	29%
Free	0	104	28	27%

Channel	Revenue	Total Customers	Churned Customers	Churn Rate
Paid Ads	5,140,283	89	24	27%
Organic Search	3,830,055	81	21	26%

Region	Revenue	Total Customers	Churned Customers	Churn Rate
Lagos	3,622,605	61	18	30%
Remote	3,387,469	70	20	29%

Industry	Revenue	Total Customers	Churned Customers	Churn Rate
Healthcare	4,628,500	80	23	29%
Tech	2,888,853	61	17	28%

In Payment Plan, Enterprise (High Revenue) and Free Plan (with 0 Revenue) have the highest churn rate.

In Channel of Acquiring Customers, Organic search has the second highest churn rate, despite its low revenue which could mean poor customer quality.

The Region section, shows that Lagos even with low customers have the highest churn rate even across other drivers.

Across Industry, Tech isnt doing great both in Revenue and Customer Retention.

Key Insights

Enterprise High Value but Unstable Customers

This means that although Enterprise has High Value Customers (High Revenue + Low Customers) their High Churn Rate makes them unstable.

Uneven Regional Performance

Port Harcourt and Enugu deliver Strong Revenue with Low Churn despite smaller customer bases. While, Lagos struggles with High Churn and Ibadan despite having the Most Customers, generates Low Revenue.

Education Sector Achievement

Across Industries Education has the most stable and high performing customers. They have third lowest number customers, generate the highest reenue and have the lowest churn rate.

Growth Strategy for the Next 6 Months

Protect High-Value Revenue

Find out the major cause of churn in Enterprise & Healthcare and try reducing it through stronger onboarding, account management and monitor early churn signals.

Improve What's Working

Increase marketing in Education, Port Harcourt & Enugu and Social Media segments and try replicating success patterns from them to other areas.

Monetize Existing Demand

Know the reason behind low revenue and Upsell high-volume, low-revenue segments (Ibadan, Free & Basic users) to Pro and Enterprise.

By Ibeachu Judith

Overall performance shows key insights for improvement and growth. With the right strategy, high customer retention can be achieved successfully.
